

Action Glass & Aluminium Pty Ltd understands Workplace Health and Safety (OSH) is an integral part of its business operations. We believe no business priority comes before safety.

The Action Glass & Aluminium team is actively involved in the management and planning of Workplace Health and Safety. We have aligned our safety management system to meet the requirements of the AS/NZS: 4801.2001, current Safety Legislation including the Act, Regulations, Standards and Codes of Practice.

We strive to continually improve our WHS systems and processes and will do so by:

- Continually monitoring our business activities and implementing beneficial changes when needed.
- Implementing measurable goals which are periodically reviewed to assist with improvement of our systems
- Ensuring our policies are up to date and effectively communicated with all employees
- Complying with legal and client requirements in all aspects of our safety management procedures
- Providing employees with appropriate levels of supervision, training and leadership to ensure safety and compliance
- Maintain all plant and equipment to ensure no employee or client is exposed to avoidable hazards

We encourage our employees to be active in observing and recommending changes in the workplace to reduce exposure to any risks and hazards.

Action Glass & Aluminium expect all our employees to accept responsibility for their actions, to report unsafe acts and working conditions, and behave in a manner that reflects safe work practices and standards.

If at any time illness or injury results in a disability to our employees, Action Glass & Aluminium will manage the Injury Management process to facilitate their safe return to gainful and meaningful employment

We will periodically review this policy to ensure we are providing the best possible service to our customers with the highest of safety standards to our employees and the public.

John Mitsikas
Managing Director
